Rabies Expiration Date: ____/____/____	Rabies Expiration Date: ____/____/____	Rabies Expiration Date: ____/____/____

NOTE: Use of the dog park is limited to 2 dogs at a time per owner, but you may register additional dogs, using a second application form if necessary.

Legible copy of rabies certification for each registered dog and a signed responsibility/release statement must be attached!

Please Complete Application And Return In Person To:

Dare County Parks and Recreation Department, NB Division

Attn: Susan Andres, Administrative Specialist

602 Mustian Street, Kill Devil Hills, NC 27948

THIS PART OF FORM TO BE COMPLETED BY PARKS AND RECREATION STAFF

Application and attachments reviewed by _____ Date _____

Number of dogs registered _____

Number of dog park tags issued (one for each dog registered) _____

Annual gate code: _____ OR Temporary gate code _____

ACCEPTANCE OF RESPONSIBILITY AND RISK, RELEASE OF LIABILITY

I hereby acknowledge that I have voluntarily applied for permission to use, with my dogs, designated dog park areas in parks operated by the County of Dare, and submitted the required proof of rabies vaccination. All information provided in this application is accurate and truthful to the best of my knowledge. I understand that falsification of information may result in revocation of dog park privileges.

I understand that unleashing my dog and being physically present at a dog park area involves risks of injury to me, any individual accompanying me, other people, my dog(s) and other dogs. Risks include, but are not limited to, exposure to aggressive dogs, unpredictable behavior, and lack of training, as well as dog fights, dog bites, theft or unlawful capture, escape over and under fences, vegetation or standing water (that may be unhealthful or poisonous if consumed), burrs or seeds that may become lodged in a dog’s coat, (feet, eyes, nose or ears), mosquitoes, ticks, chiggers, fleas, fire ants and other insects, and wildlife typically found in a park, such as snakes, raccoons, opossums, etc. ____ (initial)

I further understand and assume that despite the efforts of the County of Dare and the Kitty Hawk Dog Park committee to ensure that owners have complied, there is risk that not all dogs present in the dog park are vaccinated for rabies, as required, and that this could result in harm to other dogs and human beings. ____ (initial)

I also understand that use of dog park areas is self-directed and not directly supervised by any agent or employee of the County of Dare. I assume all risks associated with using the dog park, including fixtures and equipment, in a responsible, unsupervised, and self-directed manner. ____ (initial)

By signing this release, I agree to indemnify and hold harmless the County of Dare and the Kitty Hawk Dog Park Committee, their agents, officers, employees and assigns from and against all loss, cost, damages, expense, and liability resulting from my use of the Kitty Hawk Dog Park, including death, sickness, injury, and disease to any person or dog, or destruction to property, real or personal, arising directly from my use of the dog park. ____ (initial)

I have read the rules and regulations for use of the Kitty Hawk Dog Park provided with this application and agree to abide by them. I understand that noncompliance with Dog Park rules may result in revocation of dog park use privileges. ____ (initial)

I HAVE READ AND AGREE TO ABIDE BY THIS RELEASE OF LIABILITY; AS WELL AS THE RULES AND REGULATIONS OF THE KITTY HAWK DOG PARK AND AGREE THAT MY FAILURE TO ABIDE BY SAME WILL RESULT IN THE EXPULSION OF ME AND MY PET FROM THE PARK.

To be signed by the dog owner and any other persons who the owner may allow to take the dog into the park.

RULES & REGULATIONS FOR THE KITTY HAWK DOG PARK, DARE COUNTY, NC

FIRST TIME VISITORS

For all first-time dog park visitors, consider visiting the park without your pet. Familiarize yourself with the posted rules and how the park works. This will allow you to get a lay of the facility so you know what to expect. Talk to other dog owners during this trip and gather information. Ask if there have been problems with other dogs and try to determine what the peak and non-peak hours are.

Remember, even dogs can get stressed and over-excited. Taking your pet during non-peak hours may be a good way to ease your family member into the new experience. Just like people, dogs need some time to get comfortable with other dogs. Many dogs will be experiencing the off-leash environment for the first time and may not be used to the excitement and level of energy. It also takes time for a new dog to become comfortable with the idea that other dogs all share this neutral environment.

Please watch your dog closely. If your dog acts aggressively, please put the dog on a leash immediately and leave. Keep in mind that everyone at the park wants the same thing - socialized dogs that can have fun playing together.

At times, the park can become quite crowded. If you are not sure how your dog will react to the current conditions, don't put pressure on your dog by forcing him/her into what he/she thinks is a threatening situation. Instead, come back at another time when it is less crowded. The first visit can be a little stressful for both you and your dog, so keep it short and happy. Gradually work your way to longer visits. Leaving early when your dog is having a good time will make it more likely that your dog will be anxious to return for another visit.

LEASHING YOUR DOG

All dogs shall be leashed at all times while outside the fenced dog park area. Even if your pet is under perfect voice control, many non-dog people have fears and any dog off leash outside the fenced area violates County Park Rules. Dogs must be kept on a leash until the owners/handlers and dog(s) are inside the double-gated transition area. Leashes should be removed while inside the double-gated transition area. Some dogs can feel threatened if they are leashed in the presence of unleashed dogs. Mixing leashed and unleashed dogs can be an explosive situation. Leashed dogs, and their humans, often display body language and behavior that is threatening to the free dogs and may provoke them to be threatening and defensive in return. All dogs shall have a collar on at all times so owners have something to grab, if needed.

ENTERING THE PARK

Do not enter the double-gated transition area if there is already someone in there. Make sure that the gates are secured in front of and behind you when entering and leaving the park. Quickly move away from the entrance area as you enter. That will help disperse the group of dogs that will come over to welcome your dog to the park. Move away from the fence so that your dog will not feel cornered or threatened. This will lessen the problem caused when several off-leash dogs already in the park come running over to greet the new arrival, perhaps overwhelming the arriving dog. And of course, be sure to ask any owners/handlers at the park to secure their dogs so that you and your dog can come into the park without a struggle.

STAY ALERT!

Keep your head on a swivel at all times as there will likely be groups of dogs running around the park and having fun. People standing around are obstructions - a dog being chased may try to run its pursuer into a person in order to gain an advantage. Stay alert!

KEEP WALKING

Walking defuses defensive behaviors and helps to keep the off-leash area a neutral territory. This means your dog is more likely to pass by another dog with just a curious sniff rather than a stare-down. Limit the time you spend standing or sitting and chatting. When folks congregate, many dogs may become protective of their people and their space, making scuffles more likely to occur.

ABOUT CHOKE AND PRONG COLLARS:

Remember that choke, prong, or spiked collars are not allowed inside the off-leash area. Each of these collar

types can result in injury to its wearer, another dog, or a person, depending on the situation. If a choke collar gets hung up on something while running, its wearer can become choked. Some dogs, while playing, like to softly bite the back of another dog's neck. Dogs wearing prong collars receive a much stronger bite during this type of play, while dogs wearing spiked collars can inflict injury.

BE RESPONSIBLE!

If your pet has a contagious condition it is not allowed in the park. STAY AWAY from the dog park until a vet has said that there is no danger to other dogs. For your own dog's and all other dogs' protection, your dog needs to be current on all of their vaccinations. Dogs who are not current in all vaccinations shall not be permitted in the park. Please know and follow the rules! Complaints about you or your dog threaten the success of these sites.

BE AWARE THAT DOGS HAVE DIFFERENT PLAY STYLES.

Educate yourself about dog behavior. Behavior that concerns some dog owners may simply be a rambunctious play style. Always respect other dog owners' wishes if they are not comfortable with how your dog is interacting with theirs. Simply move to another part of the park for a while. Leash up and leave if your dog is acting in an aggressive manner or having a bad day. The owner of any dog displaying mounting behavior must immediately leash and remove the dog from the situation.

DOG WASTE BAGS AND RECEPTACLES

Our dog park is equipped with waste receptacles and plenty of bags, so use them! The complaint most heard from opponents of dog parks is the handling of waste matter and the upkeep of the park. Owners shall clean up after their own pet. While visiting, please also help pick up any "orphan poop" that someone else might have missed. Continued use of this park will depend on our control of this issue and pitching in to help.

DIGGING

Owners must stop their dogs from digging and are responsible for quickly filling in any holes or repairing any damage their dog causes.

CLEAN UP

Please clean up YOUR park. Trash, cigarette butts (SMOKING IS NOT PERMITTED WITHIN THE PARK), and anything else on the ground that may end up in a dog's mouth. Before you drop something on the ground, ask yourself "Would I want my dog to eat this?" We must all work to keep our park clean.

NO BARE FEET!

No one in bare feet is permitted in the park. There are rocks, wood chips, and perhaps other debris in the park. Avoid getting infections by keeping your shoes on!

FOOD ITEMS

Human or dog food / treats are not permitted in the dog park. Many dogs are on diets to keep their weight under control. Some dogs have food allergies and that treat might make a dog ill. A normally well-behaved dog can jump at or lunge for food, especially tasty human food, when hungry. Food can also initiate a fight.

PREVENT INJURIES

Dog owners are liable for injuries and damage inflicted by their dog. Watch your dog carefully! If your dog injures a person or a dog, give your name and phone number to the injured party. Report to law enforcement authorities any handlers who refuse to take responsibility for damages/injuries and who are endangering the safety of others. Record their license plate number if possible.

KNOW YOUR DOG

Not all dogs like meeting new dogs. If your dog has not regularly interacted with dogs, find out how he will react before forcing him to meet lots of unfamiliar dogs. Invite a few mellow dogs over to your friend's big yard to play. Check for obedience schools that offer socialization classes for adult dogs. Be sure to socialize puppies (8-16 weeks of age) at a puppy kindergarten class. Early socialization is one of the most important things you will ever do for your dog! Do not bring dogs with known aggressive tendencies into the Dog Park. You are risking harm to others and creating a potential liability for yourself. Mounting can initiate a potentially harmful situation.

SERVICE GATE

The dog park fencing contains one (1) service gate located at the rear of the park. This gate provides access for

the county's maintenance and landscape crews and their equipment. It is NOT intended for use by park visitors and their dogs and is to be kept locked unless in use by authorized personnel. DO NOT enter the fenced-in, off-leash area through the service gate. This gate does not provide the control that you need to have over the dogs while entering or exiting the Park. Additionally, dogs already in the off-leash area, including dogs that might be unfriendly toward your dog, might escape as you enter the Park through an unauthorized service gate. If you find an unlocked maintenance gate, PLEASE NOTIFY DCPR as soon as possible at (252)475-5850 during normal business hours (Monday - Friday, 8:30 am - 5:00 pm, legal holidays excluded).

CHILDREN IN THE DOG PARK

CHILDREN MUST BE 8 YEARS OLD OR OLDER AND OVER 55 INCHES IN HEIGHT TO BE ALLOWED IN THE DOG PARK. The Dog Park is NOT a safe place for children. It was created as a place for people to enjoy their dogs' off-leash and for dogs to interact with other dogs. Children could be considered an interruption in dog play, and playful unsupervised children and playful unleashed dogs mixed together could result in injury. Small children are at greater risk of being injured at a dog park than are older children and adults. This is a playground for dogs, not children. There are other parks where children can safely play and socialize. The Dog Park is not a petting zoo or a place to "get the child over his/her fear of dogs". You take full responsibility for your child's safety while at the Dog Park.

DANGERS

While most dogs are curious and friendly, not all dogs are child-friendly. Many dogs do not live with kids and have not been socialized to children. Young children sometimes have not learned that not all dogs like to be petted and may feel scared or threatened if a child runs toward them or grabs at them.

Dogs often run fast and play vigorously with each other while in the park and they may inadvertently knock down and hurt a child who is standing out in the open.

Dogs can jump high enough to investigate babies in front/backpacks. In this case, a dog may inadvertently knock the parent down causing injury to the parent and infant. Herding dogs may nip at children while attempting to "round them up." Young children often run instead of walk, and scream instead of talk—these actions can cause some dogs to get overly excited. A running, squealing or screaming child attracts attention and may become a target for many dogs with strong prey-chasing instincts, because the child resembles an injured animal or prey.

Direct eye contact is confrontational to dogs. Interested children are just the right height to make direct eye contact with dogs, placing them at great risk from dogs which consider this a confrontational challenge.

Never let your child have toys or food in a dog park. A friendly dog might knockdown your child to get at a bright ball or cookie.

All dogs have the potential to bite. A small child is more likely to be at a dog's face level, and more likely to be bitten in the face if a bite occurs.

HEALTH RISKS

Children are more susceptible to contracting intestinal worms and other infections from touching grass where feces or urine are present. That is one major reason dogs are prohibited from children's playgrounds and school yards.

- Be sure your children (and you) always wear shoes in a dog park.
- Children can pick up fleas, lice, or skin mites from infected dogs.
- Tennis balls may carry disease and contamination.

IF YOU DO DECIDE TO BRING YOUR OLDER CHILDREN (8 YEARS OLD AND OVER 55 INCHES TALL) TO THE DOG PARK, please be sure to teach your children how to behave properly in a dog park environment and make sure your child follows these rules:

- Do not wave your arms wildly
- Do not run and scream
- **Do not chase or tease the dogs**
- Do not allow your child to bring toys
- Do not approach or pet any dog without the owner's presence and permission.
- Do not make and hold eye contact with a dog. Direct eye contact is confrontational to dogs.

- Do not make and hold eye contact with a dog. Direct eye contact is confrontational to dogs.
- Do not pick up a and wave sticks

Also, teach them how to react if an emergency situation occurs:

- Never run.
- Hide face, fold arms, and stand still 'like a tree' or lie down
- Tuck arms and legs into the body, and lie 'like a log'
- Wait till an adult arrives or the dog leaves

Remember, your main responsibility while in the park is to monitor your dog(s) and to be prepared to intervene if there is any sign of trouble. Before bringing children to the park, consider whether you can effectively supervise both the dog and the children at the same time. If you choose to bring your children within the park, you should SUPERVISE THEM VERY CLOSELY!! PARENTS, KEEP YOUR CHILDREN WITHIN REACH. The safest place for your child while in the Dog Park is standing by his/her parents' side or holding their hand.

ABOUT DOG FIGHTS

Dog fights in dog parks are rarely a problem, because dogs consider it to be neutral territory. This is because, since all of them are visitors, none of the dogs are protecting its own turf. The best way to prevent a fight is not to allow it to happen in the first place. Know your dog, understand canine communication, monitor situations carefully, and be prepared to intervene before stress, over-stimulation, or aggressions escalate into a full-fledged fight. Do not bring dogs with known aggressive tendencies to the park. You are risking harm and creating a potential liability for yourself. Try to keep your dogs out of the corners of the fenced area. Dogs playing in a group that get 'trapped' in a corner may feel threatened or fearful. **If a dog fight occurs, owners are responsible for immediately breaking it up. Both owners must get control of their dogs immediately. If one owner gets control of his or her dog but the other owner does not; this creates a very dangerous situation for the first dog and owner. Other owners should get hold of their own dogs, and divert their attention elsewhere. The sight of a fight breaking out sometimes incites other dogs to get involved.**

THE 4P'S = WARNING SIGNS

Prevent a Dog Fight before It Happens -Learn the 4P's Warning Signs

- **POSTURE** - A dog's body language can communicate fear, hostility or submission. Learn to read and respond to your own dog's body language, and others.
- **PACKING** - More than 2 dogs packed together can lead to trouble. Break it up before it starts by leading your dog to a neutral area at least 30 feet away.
- **POSSESSION** - Whether it's you, a ball, or a treat, most dogs will protect what is theirs. Remain aware.
- **PROVOKING** - If your dog is continuously annoying another dog or dogs, or provoking attention, it's time to leave the park.

WHAT YOU CAN DO TO PREVENT A DOG FIGHT

- Most importantly, KNOW YOUR DOG - what he does and doesn't tolerate; signs that he is getting annoyed; his unique body language;
- **If** there is a dog in the park "pushing his buttons" keep them apart. It's a large park move to the opposite end.
- **If** it looks like there is about to be a problem, distract the dogs. Call, whistle, throw a tennis ball at them, squirt them with a water bottle -- whatever it takes to turn their attention to you.
- **BE VIGILANT** - know where your dog is at all times. Never be more than a few steps away.

Learn signs indicating impending problems, like; dominant body language and posturing i.e. one dog placing his head over the back of another, sideways looks; standing stiffly; pinning.

Packing can get out of hand when there are too many dogs or a bad mix of dogs; some days there is just a bad mix of dogs. If you feel uncomfortable, trust your intuition. Take your dog out and come back later

Humping most dogs will just "bark off" a dog if he doesn't like being mounted. If the other dog doesn't "take the hint" ask that owner for help.

WHAT TO DO IF A FIGHT OCCURS

An injured dog may bite anyone nearby. A dog fight can be violent and is upsetting to everyone present.

- Keep calm. Even the calmest, most pleasant, well-adjusted person may become upset, angry or belligerent, if they or their dog is injured in a fight. Emotional behavior is automatic; try to remain calm and as objective as possible.
- Never reach your hands into the middle of a dog fight. You may get bit, and often by your own dog.
- Distract the dogs and divert their attention. A blast of water from a water bottle, a loud whistle, or a pocket air horn may work.
- If your dog is not in the fight, make sure he does not join in.
- If a fight occurs, control your dog and remove him to a neutral area.
- Maintain a cool head. Getting upset and yelling will only add to the frenzy.

When warranted, exchange contact information with the other dog owners. If you can't because you must attend to your dog, designate someone else to get information. Remember, owners are solely liable for injuries or damage caused by their dogs. This includes injury to another dog or person, no matter how it began, who said what, or whatever.

I HAVE READ AND AGREE TO ABIDE BY THESE RULES AND REGULATIONS AND AGREE THAT MY FAILURE TO ABIDE BY THESE RULES AND REGULATIONS WILL RESULT IN THE EXPULSION OF ME AND MY PET FROM THE PARK.

To be signed by the dog owner and any other persons who the owner may be allowed to take the dog into the park.
