Subject: Well Completion Documents for Production Well Skyco No. 9
Dare County Water System
PWS ID 04-28-030, Dare County

Dear Mr. Bailey:

On behalf of Dare County Water, CDM is pleased to inform you that Dare County's Skyco No. 9 Production Well has been constructed and tested by Magette Well and Pump Company. Attached for your information and review are four sets of well completion documents that include the following information:

- Signed Well Driller's Log
- Well Yield and Drawdown Report
- Well Site Deed and Plat
- Water Quality Analyses

An Application for Approval of Engineering Plans and Specifications for this replacement well project was received by NCDENR on October 5, 2004 (Tracking No. 04-01578). It was pulled for review on October 8, 2004 and forwarded to the Washington Regional Office on October 8, 2004. We are requesting authorization to finish all construction related to the Skyco No. 9 Production Well.

It is our professional opinion, based upon our review of the water quality and hydrogeologic characteristics of this new well, that the NCDENR should be able to authorize the construction of the permanent facility.

Property"), and being more particularly described on attached Exhibit A; and

WHEREAS, the preservation of the Property is a condition of Department of the Army Nationwide Permit Number 18 dated September 23, 2003, issued to Grantor (although the permit is actually in the name of Bill Daniels, a principal owner of Grantor) by the Wilmington District Corps of Engineers, required to mitigate for unavoidable stream and/or wetland impacts authorized by that permit, and certified by a 401 Water Quality Certification issued by the North Carolina Division of Water Quality. Grantor and Grantee as the holder agree that third-party rights of enforcement shall be held by the U.S. Army Corps of Engineers, Wilmington District and the North Carolina Division of Water Quality (Third-Parties, to include any successor agencies), and that these rights are in addition to, and do not limit, the rights of enforcement under said permit and certification.

WHEREAS, Grantor is willing to grant a Conservation Easement on a portion of the Protected Property, thereby restricting and limiting the use of the Protected Property to the terms and conditions and for the purposes hereinafter set forth, and Grantee is willing to accept such easement.

NOW, THEREFORE, in consideration of the mutual covenants, terms, conditions, and restrictions hereinafter set forth. Grantor unconditionally and irrevocably hereby grants and conveys unto Grantee, its successors and assigns, forever and in perpetuity, a Conservation Easement of the nature and character and to the extent hereinafter set forth, over a portion of the Protected Property, referred to hereafter as the Easement Area, for the benefit of the people of North Carolina, and being all of the tract of land identified on Exhibit A attached being 0.57 acres.

The purposes of this Conservation Easement are to maintain, restore, enhance, and create wetland and/or riparian resources in the Easement Area that contributes to the protection and improvement of water quality, flood prevention, fisheries, aquatic habitat, wildlife habitat, and recreational opportunities; to maintain permanently the Easement Area in its natural condition, consistent with these purposes; and to prevent any use of the Easement Area that will significantly impair or interfere with these purposes. To achieve these purposes, the following conditions and restrictions are set forth:

I. DURATION OF EASEMENT

This Conservation Easement shall be perpetual. It is an easement in gross, runs with the land, and is enforceable by Grantee against Grantor, their personal representatives, heirs, successors, and assigns, lessees, agents, and licensees.

II. RESERVED USES AND RESTRICTED ACTIVITIES

The Easement Area shall be restricted from any development or usage that would impair or interfere with the purposes of this Conservation Easement. Unless expressly reserved as a compatible use herein, any activity in, or use of, the Easement Area by the Grantor is prohibited as inconsistent with the purposes of this

Conservation Easement. Any rights not expressly reserved hereunder by the Grantor have been acquired by the Grantee. The following specific uses are prohibited, restricted, or reserved as indicated:

A. Recreational Uses. Grantor expressly reserves the right to undeveloped recreational uses, including hunting and fishing, and access to the Easement Area for the purposes thereof. Usage of motorized vehicles in the Easement Area is prohibited.

B. Educational Uses. The Grantor reserves the right to undeveloped educational uses and the right of access to the Easement Area for such purposes including organized educational activities such as site visits, studies, and observations.

C. Vegetative Cutting. Cutting, removal, mowing, harming, or destruction of any vegetation in the Easement Area is prohibited.

D. Industrial Use. Industrial activities in the Easement Area are prohibited.

E. Residential Use. Residential use of the Easement Area is prohibited.

F. Commercial Use. Commercial activities in the Easement Area are prohibited.

G. Agricultural Use. Agricultural use of the Easement Area including use for cropland, waste lagoons, or pastureland is prohibited.

H. New Construction. There shall be no building, facility, mobile home, walkways, roads or other structure constructed or placed in the Easement Area.

I. Signs. No signs shall be permitted in the Easement Area except interpretive signs describing restoration activities and the conservation values of the Easement Area, signs identifying the owner of the Protected Property and the holder of the Conservation Easement, and signs giving directions or proscribing rules and regulations for the use of the Easement Area.

J. Dumping. Dumping of soil, trash, ashes, garbage, waste, abandoned vehicles, appliance or machinery, or other material in the Easement Area is prohibited.

K. Grading, Mineral Use, Excavation, Dredging. There shall be no grading, filling, excavation, dredging, mining, or drilling; no removal of topsoil, sand, gravel, rock, peat, minerals, or other materials.

L. Water Quality and Drainage Patterns. There shall be no diking, draining, dredging, channeling, filling, leveling, pumping, impounding or related activities, or altering or tampering with water control structures or devices, or disruption or alteration of the restored, enhanced, or created drainage patterns. In addition, diverting or causing or permitting the diversion of surface or underground water into, within or out of the easement area by any means, removal of wetlands, polluting or discharging into waters, springs, seeps, or wetlands, or use of pesticide or biocides is prohibited.

M. Subdivision. Subdivision, partitioning, or dividing the Easement Area is prohibited.

N. Development Rights. No development rights which have been encumbered or extinguished by this Conservation Easement shall be transferred pursuant to a transferable development rights scheme or cluster development arrangement or otherwise.

The Grantee, and authorized representatives of the Grantee, shall have the right to enter the Easement Area and shall have the right of reasonable ingress and egress to the Easement Area over the Protected Property, at all reasonable times to undertake any activities to restore, manage, maintain, enhance, and monitor the wetland and riparian resources of the Easement Area. These activities include planting of trees, shrubs and herbaceous vegetation, installation of monitoring wells, utilization of heavy equipment to grade, fill, and prepare the soil, modification of the hydrology of the site, and installation of natural and manmade materials as needed to direct in-stream, above ground, and subterranean water flow. In addition, the Grantee, and authorized representatives of the Grantee, shall have the right to enter the Easement Area and shall have the right of reasonable ingress and egress to the Easement Area over the Protected Property, at all reasonable times for the purpose of inspecting said property to determine if the Grantor is complying with the terms, conditions, restrictions, and purposes of this Conservation Easement. The easement rights granted herein do not include public access rights.

The Grantor may request permission to vary from the above restrictions for good cause shown, provided that any such request is consistent with the purposes of this Conservation Easement. The Grantor shall not vary from the above restrictions without first obtaining written approval from the Wetlands Restoration Program, whose mailing address is 1619 Mail Services Center, Raleigh, NC 27699-1619.

III. ENFORCEMENT AND REMEDIES

A. In the event that the Grantee determines that the Grantor has violated or is threatening to violate any of these terms, conditions, or restrictions, the Grantee may institute a suit to enjoin such violation and if necessary, to require the restoration of the Easement Area to its prior condition at the expense of the Grantor.

B. No failure on the part of Grantee to enforce any covenant or provision hereof shall discharge or invalidate such covenant or any other covenant, condition, or provision hereof or affect the right of Grantee to enforce the same in the event of a subsequent breach or default.

IV. MISCELLANEOUS

A. This Conservation Easement shall be construed to promote the purposes of N.C. Gen Stat. 143-214.8 et seq., the Wetlands Restoration Program.

B. This instrument sets forth the entire agreement of the parties with respect to the Conservation Easement and supersedes all prior discussions, negotiations, understandings or

agreements relating to the Conservation Easement. If any provision is found to be invalid, the remainder of the provisions of the Conservation Easement, and the application of such provision to persons or circumstances other than those as to which it is found to be invalid, shall not be affected thereby.

C. Any notices shall be sent by registered or certified mail, return receipt requested to the parties at their addresses shown above or to other address(es) as either party establishes in writing upon notification to the other.

D. Grantor shall notify Grantee and the U.S. Army Corps of Engineers in writing of the name and address and any party to whom the Protected Property or any part thereof is to be transferred at least sixty (60) days prior to the time said transfer is made. Grantor further agrees to make any subsequent lease, deed, or other legal instrument by which any interest in the Protected Property is conveyed subject to the Conservation Easement herein created.

V. QUIET ENJOYMENT

Grantor reserves all rights accruing from ownership of the Protected Property, including the right to engage in or permit or invite others to engage in only those uses of the Easement Area that are expressly reserved herein, not prohibited or restricted herein, and are not inconsistent with the purposes of this Conservation Easement. Without limiting the generality of the foregoing, the Grantor expressly reserves to the Grantor, and the Grantor's invitees and licensees, the right of access to the Easement Area, and the right of quiet enjoyment of the Easement Area.

TO HAVE AND TO HOLD the said rights and easements perpetually unto Grantee for the aforesaid purposes.

AND Grantor covenants that Grantor is seized of said premises in fee and has the right to convey the permanent easement herein granted; that the same are free from encumbrances and that Grantor will warrant and defend title to the same against the claims of all persons whomsoever.

IN WITNESS WHEREOF, the Grantor has caused this instrument to be signed the day and year first above written.
